Pick the plan that's right for you

Webex offers several types of plans that include calling. The Basic and Meet plans include the ability to call anyone with a Webex account. The Call plan enables you to also call anyone with a phone number domestically or internationally (usage billed per minute applies) and includes additional calling features. When complimented with the Meet plan, you'll easily be able to elevate your call to a full-featured meeting and experience the most seamless and robust collaboration experience to keep your business running.

Innovative calling features deliver exceptional experiences

The Webex App brings together your teams, your customers, and your work with secure business phone capabilities. It's wherever you need it with all the calling features you expect.

Standard Call plan features:

- **Audio and video calls:** Instantly place crystal clear audio or video calls with quick-to-call buttons
- **Background noise removal:** Feel free to pick up calls while you're in a busy environment and not worry
- **Call forwarding:** On the go, forward your calls to another phone number or to voicemail
- **Call hold/resume:** Easily place a call on hold and resume again
- **Call waiting/call transfer:** View who is calling and seamlessly transfer calls to another colleague
- **Elevate a call to a meeting:** If you're on a 1:1 telephone call you can easily elevate it into a full-featured meeting* to take advantage of transcriptions and recordings
- **Extensions and phone menu:** Automatically route calls where they need to go
- **Merge and conference:** Merge calls or easily go from 1:1 to a conference and add additional people without setting up a meeting
- **Move/pull calls:** Quickly move your call between laptop, mobile or tablets for the flexibility you need
- **Single number reach:** Set your business calls to ring at any number
- **Virtual/custom backgrounds:** Choose a background to give you more privacy, remove distractions, and share your creativity
- **Voicemail:** Connect to your voicemail, view waiting messages, and access visual or non-visual voicemail, all with a single click
